1. Material Quality: According to drawing.
2. Dimensions according to the relevant drawing (purchase order reference).
LAMP S.A.U. shall send the part drawing whenever a modification is made.
3. The material shall be free from impacts, burrs, scratches, etc., and shall be packaged in such a way as to prevent any product damage during subsequent transport or handling.
4. The quantity delivered shall be the one ordered in the purchase order. Any modifications shall be consulted with the Procurement Department.
5. The material that fails the relevant Quality inspections at LAMP S.A.U. shall be returned to the supplier.
6. Check destination before delivering the material.
7. Environmental requirements shall be taken into account, in order to minimise the generation of waste and CO2 emissions.
8. Suppliers shall ensure compliance with environmental regulations by accrediting the appropriate management of waste and providing proof thereof or by providing the company's ISO 14001 certification.
