ETP/COM-009 PACKAGING-PAPER-LABELS STANDARD: UNE-EN-ISO-9001:2015 UNE-EN-ISO 14001:2015	THIS DOCUMENT MAY BE OUTDATED AFTER PRINTING	

1. All cardboard packaging shall be manufactured according to the AFCE (Spanish Association of Corrugated Cardboard Packaging Manufacturers) quality manual and validated by LAMP SAU, complying with the measurements and requirements indicated on the drawings.
2. Packaging or paper shall be made of recycled or environmentally friendly material, ECF or TCF ("Elemental Chlorine Free" and "Totally Chlorine Free").
3. Plastic bags or wrappers shall have the minimum possible thickness.
4. The use of dyes shall be avoided whenever possible; if a dye is needed, it should preferably be water-based, solvent-free.
5. Adhesive labels shall preferably be made from recycled or environmentally friendly materials, ECF or TCF, and with a solvent-free, water-soluble adhesive.
6. Pallets or wooden boxes shall be made from recycled material or from sustainable PEFC forests.
7. The quantity delivered shall be the one ordered in the purchase order. Any modifications shall be consulted with the Procurement Department.
8. The material shall be identified by manufacturing date or batch.
9. The material that fails the relevant Quality inspections at LAMP S.A.U. shall be returned to the supplier.
10. Check destination before delivering the material.
11. Environmental requirements shall be taken into account, in order to minimise the generation of waste and CO2 emissions.
12. Suppliers shall ensure compliance with environmental regulations by accrediting the appropriate management of waste and providing proof thereof or by providing the company's ISO 14001 certification.
