Worktitude for Light

Worktitude for Wellbeing

Understanding the lighting as an important driver for leading wellbeing analyzing visual and non-visual effects.

Worktitude for Innovation

The frame for promoting and embracing innovation projects leading constants improvements in a transversal way, understanding that innovation mean a systemic and systematic procedure.

Worktitude for Life

The frame that includes all those projects focused on generate a positive impact and made more sustainable the lighting industry.

NEW WORKING SPACES

Spaces for Nomads “Everywhere like home”

STORMBELL 80

An environment that wants to “make the office a place that feels like home” requires friendly lighting while maintaining the technical requirements of good architectural lighting and offering high-quality illumination, lighting comfort, and glare control.

Spaces for Residents “Embracing the transformation”

LAMPTUB 60

Lighting designed for easily understandable and adaptable spaces, flexible to new usage needs. Spaces that foster collaboration and creativity, enabling the customisation of the space according to the user’s preference and the needs of the task to be performed, where lighting is an element as dynamic as the needs of users.

New Urban Ecosystems

“Living centric light”

Urban spaces adapted to the human scale, which generate new spaces for coexistence. Environments generated from the recovery of urban spaces, which create places with their own identity where lighting plays a key role in the whole ecosystem.

STORMBELL 80

'New solutions for new spaces'

Maintaining the rationalist inspiration of its larger predecessor, Stormbell 80 is the miniaturisation of a hood designed to adapt to both hospitality environments and new work spaces, in its individual or System version. The application of sustainable and sound-absorbent materials is also one of the features that makes this luminaire unique.
